

## Rattlesnake Kate

Rattlesnake Kate killed 140 rattlesnakes in a 2 hour period.

So about how many snakes did she have to kill each hour? \_\_\_\_\_

Use the boxes below to put tally marks inside. You mark 1 tally in the first box then mark a tally in the second box until you have a total of 140 tally marks in both boxes.

First hour

+

Second hour

= 140

An hour has 60 minutes so approximately how many snakes would she need to kill each minute?

\_\_\_\_\_

Explain how you got your answer.
